

Guide: Menulinien

MountainSite version 2.6

Menulinien

Når MountainSite åbnes, vil du øverst se en menulinie, der angiver dine muligheder. Her finder du en række standard-funktioner som: Billeder, Pdf/Filupload, Brugeradmin, Indstillinger, Hjælp og Log af.

The screenshot shows the MountainSite control panel interface. At the top left is the MountainSite logo and the text "MountainSite". To the right of the logo is the text "by BobJergCom". Below the logo is a navigation bar with the following items: **Kontrolpanel**, Billeder, Filupload, Brugeradmin, Indstillinger, Hjælp, and Log af. The main content area is divided into two panels. The left panel, titled "Kontrolpanel", contains eight icons arranged in two rows. The top row has icons for "Billeder" (a blue square with a white mountain and sun), "Webmail" (an orange envelope), and "Hjælp" (a blue square with a white question mark). The bottom row has icons for "Statistik" (an orange square with a white grid), "Brugere" (a green square with a white wrench and screwdriver), "E-mail" (a red square with a white envelope and wrench), and "Backup" (a yellow square with a white CD/DVD). The right panel, titled "Rediger hjemmeside", has two tabs: "Dansk" and "Bruger". The "Dansk" tab is active and shows a list of folders: "Tekster uden for menustruktur", "Forside", "Nyheder", "Artikler", "Skriv til web", "Billeder til web", "Gratis billeder", "Links", "Opgave", "Profil", and "Kontakt". The "Bruger" tab shows the following information: "Bruger: user01", "Rettigheder: Du er logget på som superbruger", "Du kan redigere følgende sektioner:", and "Alle". At the bottom of the interface, there is a copyright notice: "Copyright © 2005-2009 BobJergCom" and "MountainSite version 2.6".
